Propose an art exhibition on Shackleton's *Endurance* expedition

An Italian artist from Fermo, **Paola Folicaldi**, who now lives in Sweden has created a story with panels and portraits based on Frank Hurley's photographs. It is called

FORTITUDO

from Shackleton's motto "Fortitudine vincimus" (by endurance we conquer)

The panels are painted on furnishing material, and they measure about 1.50 m by 1.20 m (5 ft by 4 ft).

The portraits are painted on sack cloth and measure 70 cm x 70 cm (2 ft 4" by 2 ft 4")

You can see the exhibition on
