The *Timeless Arctic Project* presents

Arctic Strategy Seminar

19 September 2021

Hybrid day event, Kiel, Germany (UTC +2)

#timelessarctic

INVITATION

As a research project focused on reconstructing historical human impact in Svalbard, we know how important a careful balance of stakeholders' interests is in the Arctic. We are looking forward to introducing participants to the complexity of Arctic resource negotiations by enacting the SMARTIC role-play scenarios: players will slip into the roles of different Arctic stakeholders. Faced with future challenges, they need to come together for a Strategic Management of Resources in Times of Change.

Participation is free of charge. We expect, however, that you prepare well in advance and actively take part in discussions.

Participation is limited to 25 players.

Event language: English.

Application via <https://forms.gle/n2B9qSesssbh4w1H6>
